

**WEBSITE FOR HOUSEHOLD INVENTORY AND MAINTENANCE WITH
REMINDER SYSTEM AND METHOD**

Abstract of the Disclosure

A method of home maintenance comprises tracking a household inventory of items and related maintenance tasks for a user in a calendaring system and inventory system. The method includes notifying the user with a reminder from a home maintenance web site with the reminder including a notice to perform a maintenance task on an item of the household inventory and including a network link to the home maintenance web site. A computer-based home maintenance system comprises a user interface, a home maintenance website, a maintenance notification, and a network communication link permitting communication between the user interface and the home maintenance web site. The notification is viewable on the user interface that is generated by the home maintenance web site and includes a reminder to perform a maintenance job.
